Market and business conditions for Elite Capital & Co. ("ECC") in 2021 were very similar to certain unusual circumstances the company faced in 2012, which have helped ECC to create our flexible approach to funding. The most prominent among these exceptional circumstances is that ECC was incorporated and emerged at the start of the global financial crisis in 2012, when the banks and world's leading lenders started to face the crisis, thereby reducing their flexibility in granting loans to borrowers. Because ECC was established at that point in time, it did not suffer the difficulties that other lenders are now facing. Quite to the contrary, ECC benefited from the situation during that period by adapting to the situation and establishing a flexible system of its own that suited the prevailing circumstances.

There are no limits to ECC's ambition. The entire team aspires for the company to be the largest lender in the world during the coming few years. We do not have any direct competitors, because our unique and flexible approach with our customers ensures we always achieve their goals. The present lenders in the global markets were impacted by the negative effects of the present financial crisis and, as a result, they now adopt stricter attitudes toward their customers. This has provided opportunities for ECC to apply our knowledge and resources to those customers and their projects.

Elite Capital & Co.'s 20-character alpha-numeric Legal Entity Identifier Code 254900NNN237BBHG7S26 was issued by Bloomberg Finance L.P. (Bloomberg), the accredited issuer appointed by the Global Legal Entity Identifier Foundation (GLEIF). The Legal Entity Identifier (LEI) initiative is designed to create a global reference data system that uniquely identifies every legal entity or structure, in any jurisdiction, that is party to a financial transaction.

Endorsed by the G20, the establishment of a Global LEI System (GLEIS) is critical to improving measurement and monitoring of systemic risk. Global, standardised LEIs will enable regulators and organisations to more effectively measure and manage counterparty exposure while also resolving long-standing issues on entity identification across the globe. To aid global allocation of LEIs, Local Operating Units (LOUs) have been formed and must be sponsored by local regulators to assign and maintain LEIs to firms on a cost recovery basis.

The use of the LEI has been mandated by the European Securities and Markets Authority (ESMA) for the reporting of derivative transactions to Trade Repositories under European Market Infrastructure Regulation (EMIR). Under MiFID II and Market Abuse Regulation (MAR), market operators are required to collate an LEI for each issuer with securities admitted to trading. All investment firms subject to MiFID II will be required to retain a valid LEI. Firms subject to the MiFID II transaction reporting obligations will not be able to execute a trade on behalf of a client who is eligible for an LEI and does not have one.

Bloomberg Finance LP is an accredited issuer of the Legal Entity Identifier (LEI). As a Local Operating Unit (LOU) of the Global Legal Entity Identifier System, the company is responsible for the registration and administration of LEI records for over 200 countries.

The LEI is designed to uniquely identify legal entities that are participants in financial transactions, thereby helping to create greater transparency in the marketplace. The standard for this identifier and its associated reference data has been established in ISO 17442. It has been accepted for global use and has become a reporting requirement for several market regulators and authorities. Bloomberg also provides a free public database of all LEI data that it manages, giving users access to a valuable set of information when researching entity identification, risk, and exposure.

Bloomberg, the global business and financial information and news leader, gives influential decision makers a critical edge by connecting them to a dynamic network of information, people and ideas. The company's strength – delivering data, news and analytics through innovative technology, quickly and accurately – is at the core of the Bloomberg Professional service, which provides real-time financial information to subscribers globally.

Government Future Financing 2030 Program®

Elite Capital & Co. Limited has designed and launched the first one-of-a-kind financial system under the name 'Government Future Financing 2030 Program' on the 15th of January 2020 to provide financial support rather than lending to Governments.

Under this program, Elite Capital & Co. and its governmental portfolios sign agreements with the respective Government to support the country's National Projects, by providing 80% of the financing needs of those National Projects without burdening the Ministry of Finance with sovereign loans. In return, the Government announces the projects on a bidding basis by inviting all local companies and international consortia, to bid for the 20% remain funding, construction, and project operations, thereby ensuring fairness, equality, and transparency according to the rules, regulations, and laws applicable in the respective country.

On the 15th of October 2021, the UK Intellectual Property Office (the operating name of the Patent Office) approved and issued a Registration Certificate for the Trademark 'Government Future Financing 2030 Program' with Certificate No. UK00003650455.

Elite Capital & Co.'s Standard Project Funding Criteria

Elite Capital & Co. funds the private sector through a financing system that is different from the "Government Future Financing 2030 Program" through the following funding criteria:

1. Elite Capital & Co. will accept any of the following as collateral; Sovereign Guarantee, Bank Guarantee (from a bank rated "BBB" or better by S&P or Moody's), or Government Purchase Agreement "confirmed by the Ministry of Finance" of some description (e.g. Power Purchase Agreement, Petrochemical Purchase Agreement, etc)
2. For commercial or private projects ECC can provide up to 80% funding. Therefore, the project owner must have the 20% equity for the project in the form of liquid cash/assets. (NB. We cannot accept Land, Buildings, in-ground assets, etc as equity).

The said 20% is paid directly for project costs, and not to Elite Capital & Co. or any third party. The payment will be made in line with the cash flow requirements for the project, which is typically broken down into Design and Construction milestones.

3. The project must have the necessary approvals and/or permits, and must have a completed Feasibility Study.

Elite Capital & Co.'s Standard Project Funding Criteria

4. Projects are executed on an EPC+F basis, which is Engineering, Procurement and Construction plus Finance. We can execute some BOO or BOT projects, but only with 20% equity from the Project Owner or from a third party (e.g. Hedge Fund, Private investor, etc).
5. The EPC Contractor will be nominated by Elite Capital and agreed with the client in advance. The contractors we use are all from the Top 50 United Kingdom or Chinese companies.
6. To qualify for funding, the project must have a minimum of "50% UK or Chinese content", which would include the EPC Contractor, and Technology or Components.
7. The types of construction projects we can fund are; Rail, Energy Plant, Oil Refinery, Hotel, etc. We can't fund construction projects that have limited technical content – roads, housing, etc.
8. The project cannot be in a sanctioned country.

The name of Elite Capital & Co. Limited was sent within three official missions to outer space between 2016 and 2020, where its name was placed inside the spacecraft before launch into space.

2016 - OSIRIS-REx is a NASA mission, and Messages to Bennu is a partnership between the Planetary Society and the University of Arizona. NASA chose the University of Arizona to lead its third New Frontiers Mission.

OSIRIS-REx has travelled to a near-Earth asteroid called Bennu and will bring a small sample back to Earth for study. The mission was launched on September 8, 2016 from Cape Canaveral Air Force Station. As planned, the spacecraft has reached Bennu in 2018 and return a sample to Earth in 2023.

Most importantly of all, the name of Elite Capital & Co. Limited will remain outside the boundaries of Earth's atmosphere to swim in outer space throughout the ages because it will remain inside the part of the craft that will stray on the asteroid.

2018 - InSight, short for Interior Exploration using Seismic Investigations, Geodesy and Heat Transport, is a Mars lander designed to give the Red Planet its first thorough check-up since it formed 4.5 billion years ago. It is the first outer space robotic explorer to study in-depth the "inner space" of Mars: its crust, mantle, and core.

Studying Mars' interior structure answers key questions about the early formation of rocky planets in our inner solar system - Mercury, Venus, Earth, and Mars - more than 4 billion years ago, as well as rocky exoplanets. InSight also measures tectonic activity and meteorite impacts on Mars today.

The lander uses cutting edge instruments, to delve deep beneath the surface and seek the fingerprints of the processes that formed the terrestrial planets. It does so by measuring the planet's "vital signs": its "pulse" (seismology), "temperature" (heat flow), and "reflexes" (precision tracking).

This mission is part of NASA's Discovery Program for highly focused science missions, and Elite Capital & Co. Limited is proud that its name was placed inside this spacecraft.

2020 - The Elite Capital name is also placed inside Mars 2020 Mission Perseverance Rover. The Mars 2020 Perseverance Rover will search for signs of ancient microbial life, which will advance NASA's quest to explore the past habitability of Mars. The rover has a drill to collect core samples of Martian rock and soil, then store them in sealed tubes for pickup by a future mission that would ferry them back to Earth for detailed analysis. Perseverance will also test technologies to help pave the way for future human exploration of Mars.

Strapped to the rover's belly for the journey to Mars is a technology demonstration - the Mars Helicopter, Ingenuity, may achieve a "Wright Brothers moment" by testing the first powered flight on the Red Planet.

There are several ways that the mission helps pave the way for future human expeditions to Mars and demonstrates technologies that may be used in those endeavours. These include testing a method for producing oxygen from the Martian atmosphere, identifying other resources (such as subsurface water), improving landing techniques, and characterizing weather, dust, and other potential environmental conditions that could affect the future.

The name of Dr. Faisal Khazaal, Founder and Chairman of Elite Capital & Co. Limited, and the name of his daughter are also listed along with another 1.2 million inhabitants of the earth who had their names carried by the Curiosity Rover which was launched from Earth in 2011 and landed on planet Mars. Since then those people and their siblings have the priority to live and invest on Mars as per the space laws of earth. In addition to that, Dr. Khazaal was one of those who participated in the funding of the spacecraft LightSail. Being recognized for his participation he was granted ownership of a square centimeter of this spacecraft as a symbolic property for his belief in the importance of space science.

Money Laundering Prevention

If you become a client of Elite Capital & Co. Limited ("ECC") you will find that you are asked to confirm your identity and other personal details. ECC has established special verification systems involving your lawyer and bank to prove your identity. To safeguard the integrity of our deals, your contract(s) with ECC may also be subject to periodic transaction limits depending on your assets status.

You could be asked to confirm your identity whether you are a new client or have been a client for some time. While our identity verification systems are designed to minimise any inconvenience for you, the verification process may take several days to complete.

Money Laundering Offenses

Crime and terrorism need cash. Criminals turn the "dirty" cash made from drug trafficking, smuggling, and robbery into clean money by using false identities or taking the names of innocent people. Making sure that people are who they say they are is essential in the fight against crime and terrorism. This does not mean in any way that suspicion is falling on the client. Any information about client identity is held confidentially and will help stop client identity being used falsely.
